103

PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren (Gr.).

Secretary:
G. H. Arnold

Assistant Secretary:
J. K. Smit

c/o Institute for Soil Fertility
Haren (Gr.), Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; A. van Diest, Wageningen; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel.

Plant and Soil

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

WILLIAM A. ALBRECHT, Nutritional role of calcium in plants. I. Prominent in the non-legume crops, sugar beets 361

EARL ALBREGTS and A. J. OHLROGGE, The role of tube diameter and surface characteristics in the tolerance of roots to toxic solutions 235

T. B. ANILKUMAR and B. P. CHAKRAVARTI, Changes in the rhizosphere microflora of maize seedlings by pretreatment of roots with hormones and urea 679

NABIH I. ASHOUR and ABD-EL'HAMID M. ABD-EL'HAMID, *Short communication.* Relative salt tolerance of Egyptian cotton varieties during germination and early seedlings development 493

T. AWERBUCH and Y. AVNIMELECH, *Short communication.* Counting of P^{32} in plant tissues using the Cerenkov effect . 260

L. BATISTIC et J. MAYAUDON, *Short communication,* Étude chromatographique des acides phénoliques et des phénols obtenus par la fusion alcaline des acides humiques 473

G. T. S. BAYLIS, *Short communication,* Root hairs and phycomycetous mycorrhizas in phosphorus-deficient soil . . . 713

U. BENECKE, Nitrogen fixation by *Alnus viridis* (Chaix) DC . 30

C. BLOOMFIELD, G. BROWN and J. A. CATT, *Short communication.* The distribution of sulphur in the mud of Lake Victoria 479

ELSE BOKEN, Studies on methods for determining varietal utilization of nutrients. II. Barley varieties and phosphorus 645

B. CARTWRIGHT and E. G. HALLSWORTH, Effect of copper deficiency on root nodules of subterranean clover 685

T. N. CHAUDHARY and B. P. GHILDYAL, Effect of temperature associated with levels of bulk density on rice seedling emergence 87

F. W. CHICHESTER, Transformations of fertilizer nitrogen in soil. II. Total and N^{15}-labelled nitrogen of soil organo-mineral sedimentation fractions 437

E. T. CRASWELL, P. G. SAFFIGNA and S. A. WARING, The mineralization of organic nitrogen in dry soil aggregates of different sizes 383

M. DOOLEY, The microbiology of cut-away peat. IV. Autecological studies 145

J. F. DORMAAR, *Short communication*, Differentiating chernozemic soil organic matter by acriflavine adsorption. . . . 729

M. C. DREW and P. H. NYE, The supply of nutrient ions by diffusion to plant roots in soil. III. Uptake of phosphate by roots of onion, leek and rye-grass 545

N. FALLER, K. HERWIG and H. KÜHN, Die Aufnahme von Schwefeldioxyd ($S^{35}O_2$) aus der Luft. I. Einfluss auf den pflanzlichen Ertrag 177

N. FALLER, K. HERWIG and H. KÜHN, Die Aufnahme von Schwefeldioxyd ($S^{35}O_2$) aus der Luft. II. Aufnahme, Umbau und Verteilung in der Pflanze 283

ROBERT A. FLOYD and A. J. OHLROGGE, Gel formation on nodal root surfaces of *Zea mays*. I. Investigation of the gel's composition 331

RAYMOND H. FORNES, JOHN V. BERGLUND and ALBERT L. LEAF, A Comparison of the growth and nutrition of *Picea abies* (L.) Karst. and *Pinus resinosa* Ait. on a K-deficient site subjected to K fertilization 345

M. J. FRISSEL, P. POELSTRA and P. REINIGER, Chromatographic transport through soils. III. A simulation model for the evaluation of the apparent diffusion coefficient in undisturbed soils with tritiated water 161

P. A. GERAKIS and C. Z. TSANGARAKIS, The influence of Acacia senegal on the fertility of a sand sheet ('goz') soil in the Central Sudan 81

K. B. Gunn and K. B. Mistry, The effect of chelating agents on the absorption of radium by plants 7

Umesh C. Gupta, *Short communication.* The effect of limestone, molybdenum and incubation upon the extractable molybdenum in soils of eastern Canada 497

H. A. Habish, Effect of certain soil conditions on nodulations of *Acacia* spp. 1

M. A. Hammuda and Zeinab Y. Bakr, *Short communication.* Early nutrition of *Echinops spinosissimus* on white-dune and desert soils 467

R. Hüser, *Short communication.* Die Abhängigkeit der Luftstickstoffbindung in Buchenmullproben von der Dosierung des Cellulosezusatzes 727

A. Islam, Transformation of inorganic phosphorus in flooded soils under rice cropping 533

Donald A. Jameson, Degradation and accumulation of inhibitory substances from *Juniperus osteosperma* (Torr.) Little 213

H. E. Jensen, Phosphate potential and phosphate capacity of soils 17

A. Z. Joffe, The presence of aflotoxin in kernels from five years groundnut crops and of *Aspergillus flavus* isolates from kernels and soils 91

S. Kadirgamathaiyah and A. F. Mackenzie, A study of soil nitrogen organic fractions and correlation with yield response of Sudan-sorghum hybrid grass on Quebec soils . . 120

N. K. Kalyanasundaram and B. V. Mehta, *Short communication,* Availability of zinc, phosphorus and calcium in soils treated with varying levels of zinc and phosphate – A soil incubation study 699

R. Kastori, H. Harms, H. Söchtig und K. Haider, Untersuchungen zur Aufnahme und Umwandlung C^{14}-markierter Phenole durch die Pflanze. III. Die Aufnahme, der Transport und die Umwandlung von C^{14}-markierten Thymohydrochinon durch Weizenkeimpflanzem 597

FUAD H. KURDI and KENNETH L. BABCOCK, Cation uptake from bentonite suspensions by excised barley roots 413

P. LASKE, *Short communication.* Beitrag zur Bestimmung des pflanzenverfügbaren Molybdäns in Böden von Unterglasflächen 487

K. W. LEE, C. E. CLAPP and A. C. CALDWELL, *Short communication.* P^{32} distribution in phosphorus fractions of phosphorus-sensitive and -tolerant soybeans. 707

G. LIM and C. H. CHEW, Fusarium in Singapore soils 673

A. J. LOW and E. R. ARMITAGE, The composition of the leachate through cropped and uncropped soils in lysimeters compared with that of the rain 393

I. C. MACRAE and ROSABEL ANCAJAS, Volatilization of ammonia from submerged tropical soils 97

F. R. MAGDOFF and D. R. BOULDIN, Nitrogen fixation in submerged soil-sand-energy material media and the aerobic-anaerobic interface 49

V. B. MANE, N. K. SAVANT and A. K. SHINGTE, Relationship between cation exchange capacity of roots and mineral composition of plant tops as influenced by age 113

S. P. MATHUR, *Short communication.* Degradation of soil humus by the fairy ring mushroom 717

W. FRANK MILLER, *Short communication.* Inter-regional predictability of cation-exchange capacity by multiple regression 721

A. H. MOUBASHER, M. A. ELNAGHY and S. E. MEGALA, Fungi isolated from sclerotia of *Sclerotium cepivorum* and from soil and their effect upon the pathogen 305

HANS NÖMMIK, Non-exchangeable binding of ammonium and amino nitrogen by Norway spruce raw humus 581

P. S. NUTMAN, R. J. ROUGHLEY, P. J. DART and N. S. SUBBA-RAO, *Short communication.* Effect of low-temperature pretreatment on infection of clover root hairs by Rhizobium . 257

N. Panda and U. K. Misra, Use of partially acidulated rock phosphate as a possible means of minimising phosphate fixation in acid soils 225

R. P. Pareek and A. C. Gaur, Effect of dichloro diphenyl trichloroethane (DDT) on symbiosis of *Rhizobium* sp. with *Phaseolus aureus* (green gram) 297

F. W. Pauli, Humification of straw at different nitrogen levels followed by acriflavine adsorption and light absorption 313

R. H. Phipps and I. S. Cornforth, Factors effecting the toxicity of nitrite nitrogen to tomatoes 457

D. Purves and E. Jean Mackenzie, *Short communication.* Enhancement of trace-element content of cabbages grown in urban areas 483

M. Rangarajan and B. P. Chakravarti, Studies on the survival of corn stalk rot bacteria 140

Hope Robson and Haim B. Gunner, Differential response of soil microflora to diazinon 613

C. Rodriguez-Barrueco, Anne H. Mackintosh and G. Bond, Some effects of combined nitrogen on the nodule symbioses of Casuarina and Ceanothus 129

D. J. Ross and I. W. Boyd, *Short communication.* Influence of moisture and aeration on oxygen uptakes in Warburg respiratory experiments with litter and soil 251

Jakoba Ruinen, The phyllosophere. V. The grass sheath, a habitat for nitrogen-fixing micro-organisms 661

J. Schiffmann and Rina Löbel, Haemoglobin determination and its value as an early indication of peanut Rhizobium efficiency 501

D. A. van Schreven, D. J. Lindenbergh and Alie Koridon, Effect of several herbicides on bacterial populations and activity and the persistence of these herbicides in soil . . . 513

D. A. van Schreven, Leaching losses of nitrogen and potassium in polders reclaimed from Lake IJssel 629

E. A. SCHWINGHAMER, H. J. EVANS and M. D. DAWSON, Evaluation of effectiveness in mutant strains of Rhizobium by acetylene reduction relative to other criteria of N_2 fixation 192

K. G. SELIM, S. A. Z. MAHMOUD and MEHRESHAN T.-EL-MOKADEM, Effect of dieldrin and lindane on the growth and nodulation of *Vicia faba* 325

N. SETHUNATHAN, Foliar sprays of growth regulators and rhizosphere effect in *Cajanus cajan* Millsp. I. Quantitative changes 62

N. SETHUNATHAN, Foliar sprays of growth regulators and rhizosphere effect in *Cajanus cajan* Millsp. II. Qualitative changes in the rhizosphere and certain metabolic changes in the plant 71

J. K. SEYERS, A. S. CAMPBELL and T. W. WALKER, Contribution of organic carbon and clay to cation exchange capacity in a chronosequence of sandy soils 104

S. R. H. SHAH and Y. P. KALRA, Nitrogen uptake of plants affected by windbreaks 573

MAHENDRA SINGH and A. N. PATHAK, *Short communication.* Effect of heating and stem sterilization on soil manganese . 244

R. N. SINGH, *Short communication.* Penicillium rots of Gladiolus in India 249

S. C. SRIVASTAVA, An appraisal of nitrogen fertilisation practices for paddy, wheat, sugarcane, and potato 265

G. STANFORD, J. O. LEGG and F. W. CHICHESTER, Transformations of fertilizer nitrogen in soil. I. Interpretations based on chemical extractions of labelled and unlabelled nitrogen 425

JANOS M. VARGA and HALINA Y. NEUJAHR, Isolation from soil of phenol-utilizing organisms and metabolic studies on the pathways of phenol degradation 565

JAMES VLAMIS and D. E. WILLIAMS, Comparative accumulation of manganese and boron in barley tissues 623

W. S. Wilson, The effect of adding two contrasting green manure materials to soils of different texture on the uptake of nitrogen by S^{24} ryegrass 653

B. M. Zuckermann, K. Deubert, M. Mackiewicz and H. Gunner, Studies on the biodegradation of parathion . . . 273
